

Bernard Foucher

CABERNET FRANC · 2021

WINE OF ORIGIN PAARL

There is no Bernard Foucher 2021.

A VINTAGE NOT BOTTLED

At La Luandière, a vintage is never bottled simply because a harvest has taken place. Bernard Foucher represents our finest expression of Cabernet Franc, and only fruit that meets the exacting standard required of this wine is considered worthy of bearing its name.

In 2021, although the vineyard produced Cabernet Franc, the grapes did not possess the concentration, balance and character we demand for Bernard Foucher. Rather than compromise the integrity of the wine, we chose not to produce the vintage.

This decision lies at the heart of our winemaking philosophy. Selection begins in the vineyard, where only the finest fruit is chosen, and continues throughout the cellar. We believe that a flagship wine must earn its place in every vintage.

The absence of a 2021 vintage is therefore not a gap in the story, but part of it: a reflection of our commitment to bottle Bernard Foucher only when the vineyard gives us something truly worthy of the name.
